Questions to ask your doctor

These questions can help you and your doctor manage your prostate cancer and prepare for what's next.

- What do my symptoms mean?
- What might a rising PSA mean for my prostate cancer?
- What do the results of my previous test(s) mean? Do I need any additional tests to help monitor my prostate cancer?
- What can we do to prepare in case my prostate cancer progresses in the future?
- What treatment options are available if my cancer progresses?
- Based on what's important to me, which future treatment option(s) may be right for me?
